PROFESSIONAL SUMMARY

Full Stack Developer with an MCA and hands-on internship experience building 3 complete web applications from front end to back end. Proficient in Python (Flask), JavaScript (ES6), HTML5/CSS3, REST APIs, MySQL, Docker, and CI/CD pipelines. Solved 100+ LeetCode problems in Data Structures & Algorithms. Delivered an ML-powered fraud detection system with 94% classification accuracy and a cloud optimization platform that reduced resource waste by 20%. Experienced in Agile/Scrum, SDLC, Git-based workflows, and container-based Linux deployment.

TECHNICAL SKILLS

Front-End Development: HTML5, CSS3, JavaScript (ES6), DOM Manipulation, Responsive Web Design, Cross-Browser Compatibility

Back-End Development: Python, Flask, REST API, RESTful Web Services, Server-Side Logic, OOP

Databases: MySQL, SQL, Database Design, CRUD Operations, Joins, Indexing, Query Optimization, Data Modeling

DevOps & Deployment: Git, GitHub, GitHub Actions, Docker, CI/CD Pipelines, Linux, VS Code

Libraries & Frameworks: Pandas, NumPy, Scikit-learn, Matplotlib, Streamlit, pytest

Cloud Platforms: AWS, GCP, Microsoft Azure, Cloud API Integration

Programming Languages: Python, JavaScript (ES6), C++, SQL

Methodologies: Agile, Scrum, SDLC, Sprint Planning, Code Review, Version Control

WORK EXPERIENCE

Full Stack Developer Intern | Panctech Solution

Jun 2024 – Sep 2024

Chennai, Tamil Nadu

- Developed 3 full stack Python web applications using Flask for back-end logic and HTML5/CSS3/JavaScript (ES6) for responsive front-end interfaces.
- Designed and integrated 12+ REST API endpoints, enabling structured data exchange between front-end and back-end components across 3 application modules.
- Built and optimized MySQL database schemas with 15+ tables, improving average query response time by 30% through indexing and query tuning.
- Implemented CI/CD pipelines via GitHub Actions, reducing build-test-deployment cycle time by 40% and enabling faster, more reliable releases.
- Engineered 50+ pytest unit tests for back-end functions, achieving 90%+ code coverage and zero post-release defects.
- Collaborated with 4 senior developers across 6 Agile/Scrum sprints, communicating progress in daily stand-ups and resolving 20+ code review comments.

PROJECTS

AI Cloud Resource Optimizer (Full Stack Application)

Technologies: Python, Flask, REST API, HTML5, JavaScript, Docker, AWS, GCP, Azure, MySQL

- Architected an end-to-end cloud optimization platform with a Python/Flask back end, REST API layer, and interactive dashboard tracking 20+ resource metrics.
- Containerized the application using Docker for consistent Linux server deployment, reducing cloud resource waste by 20%.
- Applied ML auto-scaling algorithms for real-time resource prediction and automated reallocation, cutting manual scaling effort by 60%.

Credit Card Fraud Detection Web Application

Technologies: Python, Flask, Streamlit, HTML5, CSS3, MySQL, Scikit-learn, Pandas, Matplotlib

- Built an end-to-end fraud detection web application with a Streamlit front end and Python ML back end, achieving 94% classification accuracy.

- Designed a MySQL database schema to store and query 200,000+ transaction records, optimizing CRUD operations for fast retrieval.
- Developed responsive interactive dashboards with Matplotlib visualizations, reducing manual fraud review time by 40%.

EDUCATION

Master of Computer Applications (MCA)

Aug 2024 – Aug 2026

Anna University — Paavai Engineering College (Autonomous), Namakkal | CGPA: 7.1/10.0 (final semester result awaited)

Bachelor of Computer Applications (BCA)

Jun 2021 – Apr 2024

Annamalai University — Sri Lakshmi College of Arts and Science, Kallakurichi | CGPA: 8.1/10.0

CERTIFICATIONS & ACHIEVEMENTS

- Google IT Automation with Python — Coursera / Google (2024)
- AWS Cloud Practitioner Essentials — Amazon Web Services (2024)
- Python (Basic and Intermediate) — HackerRank (2024)
- SQL (Advanced) — HackerRank (2024)
- Machine Learning Foundations — Scikit-learn / Kaggle (2024)
- Solved 100+ Data Structures & Algorithms problems on LeetCode (Arrays, Strings, Linked Lists, Trees, Recursion, DP).
